

CALIFORNIA STUDENT CHAPTER OF THE SOCIETY FOR MARINE MAMMALOLOGY

May 2nd 2015 - 2nd annual meeting
Hosted at: Moss Landing Marine Labs

Registration and abstract submission for the meeting is now open! **Abstracts due March 31st!**
Go to: <https://www.surveymonkey.com/s/5DC9M9Q> to register

Meeting Highlights:

- Student Presentations
- Opportunity to network with other California graduate students
- Saturday evening BBQ following talks and the poster session (optional)
- Local activities (hiking, kayaking, marine mammal watching)

Registration & Abstract Submission:

We are currently accepting student registration and abstract submission for our second annual student chapter conference. Abstract submission will remain open until March 31st and registration will remain open until April 15th. We encourage registration and abstract submissions from graduate and undergraduate students alike, including students that have recently graduated. We also encourage submissions from California graduate students who are studying other large marine vertebrates that may not have a similar opportunity to present at student conference. Preference for oral presentations will be given to graduate students depending on the number of abstracts submitted. Please email us at californiastudentsmm@gmail.com if you have any issues with registering or submitting an abstract for the conference. This is a great opportunity to get ready for the upcoming Biennial Marine Mammal Conference in San Francisco.

We realize that not everyone has limited resources to travel to and attend the conference. We hope to help host students that need help with lodging with local students. Please make sure to indicate on the survey if you require a place to stay during the meeting. There will be a small fee associated with registration (no more than \$20) to help cover the costs of snacks, coffee, etc.

Please register/submit an abstract to make this meeting a success!
